DTF ACCESSORIES

PARAMETER:

COLOR: C, M, Y, K, LC, LM, FP, FY, O, G
VOLUME: 1000ML

DTF ink is a pigment ink with a unique design. White ink is a unique component that can be used to lay out the white base on the film so that colorful graphics can be printed.

Print head clogging and dryness can be reduced using this pigment ink formulation. It has the ability to survive numerous washing cycles without fading. 100% cotton and synthetic textiles are both suitable.

Arre Digibot offers a variety of DTF ink colors, including white, yellow, black, magenta, cyan, orange, green, and fluorescence pink and yellow.

FEATURES & BENEFITS

- No clogged heads ensured by super filtration
- Quick drying time for improved production speed
- Wider color gamut and denser, bright color 4
- High quality with competitive price
- Long lasting up to 2-3 years for outdoor durability
- More environmental friendly and user-friendly
- Ink particle size are evenly distributed and less than 300nm(<0.3um)

Ink Fluency Feathers

Color	Washing times	Installation print heads tests	Nozzle status after high-speed mode continuous printing 100m^2	Fluency test results
BK	0	Ok	No line-missing and no mis-inkjeting	Qualified
C	0	Ok	No line-missing and no mis-inkjeting	Qualified
M	0	Ok	No line-missing and no mis-inkjeting	Qualified
Y	0	Ok	No line-missing and no mis-inkjeting	Qualified
LC	0	Ok	No line-missing and no mis-inkjeting	Qualified
LM	0	Ok	No line-missing and no mis-inkjeting	Qualified
Each batch of ink has to pass strictly aging tests before shipment, to ensure the good and stable quality.				

Ink Color Fastness Properties

Color	Light fastness grade	Washing fastness grade
BK	5-6	4-5
C	5-6	4-5
M	5-6	4-5
Y	5-6	4-5
LC	5-6	4-5
LM	5-6	4-5
Note: Highest grade of light fastness is7, highest grade of washing fastness is 5		

Color	Dry rubbing fastness grade	Wet rubbing fastness grade
BK	4-5	4-5
C	4-5	4-5
M	4-5	4-5
Y	4-5	4-5
LC	4-5	4-5
LM	4-5	4-5
Note: comparing to Grey scale, 1-5grade, highest grade is 5
